DESCRIPTION

Plate 11.040 is a contemporary horizontal trellis designed to surround trees. Its unique laser-cut design makes it a striking enhancement for main streets, sidewalks, promenades, and public spaces. This tree grate is offered in three sizes: 120, 150, and 200 cm, crafted from steel flat bars that can be painted in any shade from our RAL palette. The tree grate serves as both a decorative and practical shield for the tree, protecting its root system from physical harm while allowing unimpeded water absorption from the soil.

GENERAL TECHNICAL DATA

Dimensions

- thickness: 1 1/2 in
- tree hole diameter 50-80cm
