## DESCRIPTION

The WAVE urban hammock was crafted for relaxation and comfort in public areas such as parks, gardens, playgrounds, waterfronts, and plazas. The 02.916.1 model doesn't require steel frames and can be installed anywhere using two anchor points, like between trees for example. Its ergonomic design ensures comfort, while the smooth finish makes it simple to maintain clean. This hammock's bed consists of **37 wooden slats**, including 35 slats with a rectangular cross-section of **47 x 65 mm** and a length of 700 mm plus 2 planks measuring **140 x 65 mm** and also 700 mm in length. These are crafted from tropical wood that's been impregnated and oiled twice for durability. The slats are held together by two stainless steel ropes with a thickness of **6 mm**. The **spacing of the holes** for the ropes is **500 mm**. A gap of **10 mm** between the slats is achieved using spacers.
